

 **merican**
Petroleum
The power of service.

Our Story

In 1984, a creative Puerto Rican businessman with extensive experience in the fuel market had the vision to create a business capable of meeting the fuel and lubricant needs of all types of clients, regardless of their industry, location, or volume requirements, while ensuring excellent service and prompt deliveries.

Today, **40 years later, American Petroleum Co., Inc.** continues to be recognized as a leader in diesel distribution in the local market, thanks to its strong commitment to first-rate customer service, efficient deliveries, competitive prices, and the ability to adapt to dramatic changes in such a demanding market.

At **American Petroleum**, we believe in more than the power of energy; we believe in the power of service.

Personnel

- 115+ employees

Fleet

- Industrial Lubricants (bulk): 100,000 gal
- Industrial Lubricants (packaged): 200,000 gal

Storage Capacity

Fuel Storage Tanks

- Buckeye - Yabucoa: 50,400,000 gal
- Toa Baja: 450,000 gal
- Ponce: 75,000 gal

Lubricant Storage Tanks

- Industrial Lubricants (bulk): 100,000 gal
- Industrial lubricants (pkg): 200,000 gal

Competitive Advantages

-  Operations and technical staff available 24/7
-  Prompt deliveries
-  Competitive prices
-  Responsible service from a team of trained professionals
-  Private fleet
-  Fleet repairs and maintenance fully managed at our facilities
-  Fuel supply for backup generators
-  Fuel inventory on our premises
-  Proven track record of supplying our customers during emergencies
-  Satellite communication in emergencies
-  Dedicated account representatives who conduct periodic visits to client facilities
-  Specialized customer service for ongoing account management

Service Flexibility

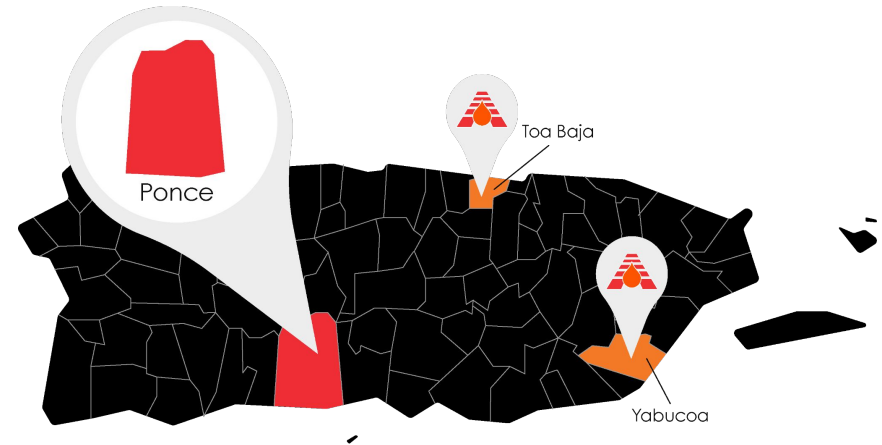

- Our various fuel sources give American Petroleum the flexibility to supply from strategic locations across the island: Ponce, San Juan, Yabucoa, and Toa Baja.
- Our storage tanks can operate 24/7.
- Because we operate a private transportation fleet, we have greater flexibility to coordinate delivery arrangements that fit the requirements of your facilities.
- Our fleet has self-pumping capacity and can dispense different volumes at multiple locations.
- Personnel are available 24 hours a day to address emergency needs.

Strategic Location

📍 Mercedita Plant, Ponce

To respond to the economic, industrial, and port growth in the southern area, American Petroleum strengthens its presence with a storage and dispatch plant in Mercedita. This location allows us to optimize routes and provide faster, more flexible, and more efficient diesel deliveries to businesses, fleets, and industries across southern, central, western, and northwestern Puerto Rico.

- **Infrastructure designed to scale with you:**
Diesel tanks with a capacity of 50,000 gallons, one loading rack, and an expansion planned for 2026.
- **Versatile fleet:**
More than 10 trucks, including lower-capacity units and trailers, operated by trained personnel and supported by a local administrative team.
- **Operational reliability:**
We reduce delivery times, optimize routes, and respond more quickly to the needs of sectors such as transportation, power generation, industry, construction, and port operations.

Our Products

American Petroleum offers its clients many products that satisfy their fuel, lubricant, or specialized product needs.

1. Fuels

American Petroleum has established relationships with traders in the United States, allowing us to purchase fuel from leading refineries worldwide. With each delivery, we ensure that the fuel specifications meet or exceed the highest industry standards.

In the fuels segment, American Petroleum distributes:

- Regular unleaded gasoline, 87 octane
- Premium unleaded gasoline, 91 octane
- Ultra Low Sulfur Diesel

In addition, our products are available at all American Gasoline Corp. service stations across Puerto Rico.

2. Lubricants

American Petroleum is the exclusive distributor of internationally known lubricant brands, including **Petro Canada Lubricants**, **Phillips 66 Lubricants**, and our private label, **American Quality Lubricants**.

Each brand offers an extensive variety of oils, greases, and specialized products for automotive or industrial equipment in any volume or packaging needed.

All products are kept at our facilities, ensuring they are available to customers when needed.

Our Services

We take pride in our ability to provide a wide range of services, from fuel and lubricant delivery to equipment rental, fleet management, and emergency response.

1. Fuel Delivery

American Petroleum leads the diesel distribution sector in Puerto Rico and operates a private fleet of more than 100 vehicles.

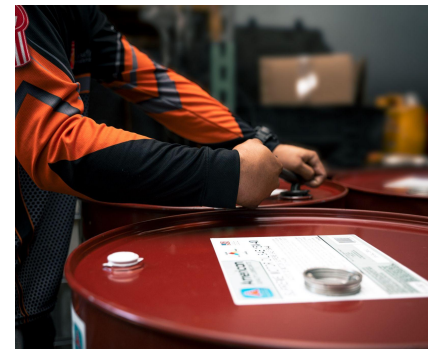

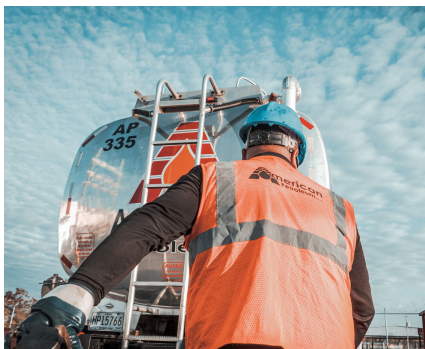

This gives us the flexibility to fulfill required deliveries while adapting our services to each client's unique needs.

Whether to industrial plants, facilities, or directly to your residence, we ensure timely deliveries. Our team is prepared to meet needs across different volumes and levels of complexity.

2. Lubricant Delivery

American Petroleum is the exclusive distributor of internationally recognized lubricant brands, including Petro-Canada Lubricants, Phillips 66 Lubricants, and our private line, American Quality Lubricants.

Each brand offers an extensive variety of oils, greases, and specialty products, catering to automotive and industrial needs and available in any required volume.

3. Equipment Rental

American Petroleum now offers an equipment rental service to ensure uninterrupted operations during emergencies, blackouts, or short to medium-term projects.

Customers can rent fuel storage and distribution equipment, including trucks and storage tanks, with capacities ranging from 500 to 6,000 gallons, providing flexibility and fuel supply support in various scenarios.

4. Fleet Card

The American Petroleum fleet card simplifies fuel expense management for businesses that own and operate vehicles. It provides control, tracking, and management of fuel expenses across multiple vehicles and drivers, improving efficiency and cost management.

The card, available in credit or cash (prepaid) options, ensures transparency and convenience.

5. On-Site Fueling

We designed our on-site fueling service to deliver fuel directly to your vehicles and equipment at your facilities. This model optimizes your operation by reducing time lost and is an ideal solution for companies without on-site storage tanks.

We serve key sectors such as transportation, logistics, construction, and emergency services.

Why choose this service?

- **No minimum volume required:**
We supply everything from a single vehicle to an entire fleet.
- **Strategic extended service hours:**
Deliveries from 6:00 p.m. to 6:00 a.m. allow your business to receive fuel outside regular business hours and without interruptions.
- **Resource savings:**
Avoid sending your staff out to obtain fuel; we come directly to you.
- **Control and transparency:**
Direct fueling with a clear record for each unit centralizes expenses and simplifies financial management through consolidated reports.

How does it work?

A simple 3-step process:

1. Request:

Call us and provide the details of your equipment, the number of gallons needed, the location, and your preferred time window.

2. Approval:

You receive an immediate quote and, upon approval, we schedule your delivery.

3. Supply:

Our team fuels each unit and provides a detailed report summarizing the service.

6. Emergency Management Services

At American Petroleum, we have spent years supporting our clients during emergency situations, providing reliable and timely supply solutions. We reinforce that commitment with services that strengthen your preparedness for any contingency.

Fuel Distribution for Generators

We offer gasoline and diesel delivery services to generators across various sectors.

Our truck fleet (with varying capacities) allows us to meet residential, commercial, and industrial needs with efficiency and adaptability.

Storage Tank Rental

We offer fuel storage tank rental services, a solution designed to strengthen emergency preparedness.

We have 500, 4,900, and 6,000-gallon tanks available, adaptable to different operational needs.

Fuel Distribution Truck Rental

We provide trucks of various capacities, from 900 to 6,000 gallons, for companies looking to increase their internal distribution capacity.

A practical alternative that can help move fuel within your operations according to your logistical needs.

Our Fleet

Our fleet of gasoline and diesel tanks and trucks includes a wide range of models designed for clean fuel distribution. This extensive fleet allows us to serve a variety of customers across the island.

Storage Tanks

American Petroleum delivers the required volume to all types of storage tanks, from manufacturing plants to construction projects.

Our equipment and professional team of drivers and dispatchers possess all certifications and security training to guarantee efficient and safe deliveries.

Diesel Fleets and Heavy-Duty Equipment

For clients without storage tanks, our trucks are prepared to deliver directly to diesel-powered truck fleets or heavy-duty equipment.

These deliveries are typically made at night or early in the morning to help ensure that our clients' projects stay on schedule without interruption.

Diesel Generators

Whether your generator's fuel tank has a capacity of 10 or 10,000 gallons, American Petroleum is equipped to deliver diesel directly to your equipment.

Our truck is equipped with a meter, pump, and independently certified calibrators, guaranteeing that the client pays strictly for the volume requested and delivered.

Companies That Trust Us

With over 40 years of experience in Puerto Rico's industrial sector, **American Petroleum Company Inc.** has cultivated strong commercial relationships with over 5,000 clients spanning various industries including transportation, agriculture, pharmaceuticals, construction, waste management, maritime, and others.

Our client portfolio includes some of Puerto Rico's most respected corporations, as well as federal agencies.

International Markets

Royal Petroleum Corp., a subsidiary of American Petroleum based in Toa Baja, Puerto Rico, is a recognized provider of fuel export and supply services in Puerto Rico and the Caribbean. With more than 25 years of industry experience, it serves the Leeward Islands by supplying gasoline and Ultra Low Sulfur Diesel.

Tax-Free Operations: Royal Petroleum Corp. is certified and authorized by the Puerto Rico Department of the Treasury to supply tax-exempt fuel to qualifying customers, in compliance with applicable United States and Puerto Rico laws.

Our ability to supply tax-exempt fuel positions us as a highly competitive provider for your energy needs.

In addition, American Petroleum expands its global reach through strategic relationships with **Widman International in Santa Cruz and American Petroleum El Salvador.**
