

FLEET CARDS & FUEL MANAGEMENT

*Joint program between American Petroleum Co. Inc.
& American Gasoline Corporation*

What is it?

A fleet card is a type of payment card that allows businesses to manage fuel expenses for vehicles they own and operate by purchasing gasoline or diesel from American Gasoline's network of gas stations.

Unlike other payment methods, fleet cards are easy to use, let you control when, where, what, and how much your drivers spend and keeps you aware of what's happening with your fleet.

This grants you more control over driver spending, tracking and managing of fuel expenses across multiple vehicles and drivers so you can avoid surprises on your bill while becoming more efficient and smarter in the way you manage your company's fuel expenses.

How does it work and where can I use it?

The fleet card can only be used for company vehicle fuel expenses made in the American Gasoline Corp. network of gas stations. It will replace other payment methods when purchasing gasoline or diesel.

But, this card cannot be used to purchase lubricants or convenience store items.

The Commercial Fleet Card works under two modalities: credit or cash (pre-paid).

**More information on the next page.*

Is a fleet card right for your company?

1. Do you have a company that relies on motor vehicles on a day-to-day basis (e.g. transport, haulage, courier, etc.)?
2. Do you have either a small or large fleet?
3. Are you seeking to avoid the percentage-up charges of credit card companies?
4. Do you want to better track spending, monitor fuel consumption, reduce costs and control your overall fuel budget?
5. Do you wish to avoid the need to collect employee fuel receipts?

If you answered 'yes' to any of these questions, then your company could benefit from joining our program.

How do I apply?

Anyone and any business, whether small or large can apply to the American Petroleum Commercial Fleet Card Program. You can fill out our cash or credit applications and once approved you can start using your fleet card.

Credit applications differ from the cash applications in the following:

- Name of applicant and their social security
- Company name and employer's identification number
- Merchant Registration

Once we receive the credit application, we will do proper vetting. Upon qualification, you will receive a contract. If you accept the terms and conditions of the account, you'll receive your fleet cards which you can use in any of the American Gasoline Corp. gas stations around the island.

Invoicing & Pre-Payment

Credit

Similar to a credit card, a credit-based terms of payment for your fleet card means you will receive invoices with a detailed description of the total consumption of fuel by your fleet that is due for payment.

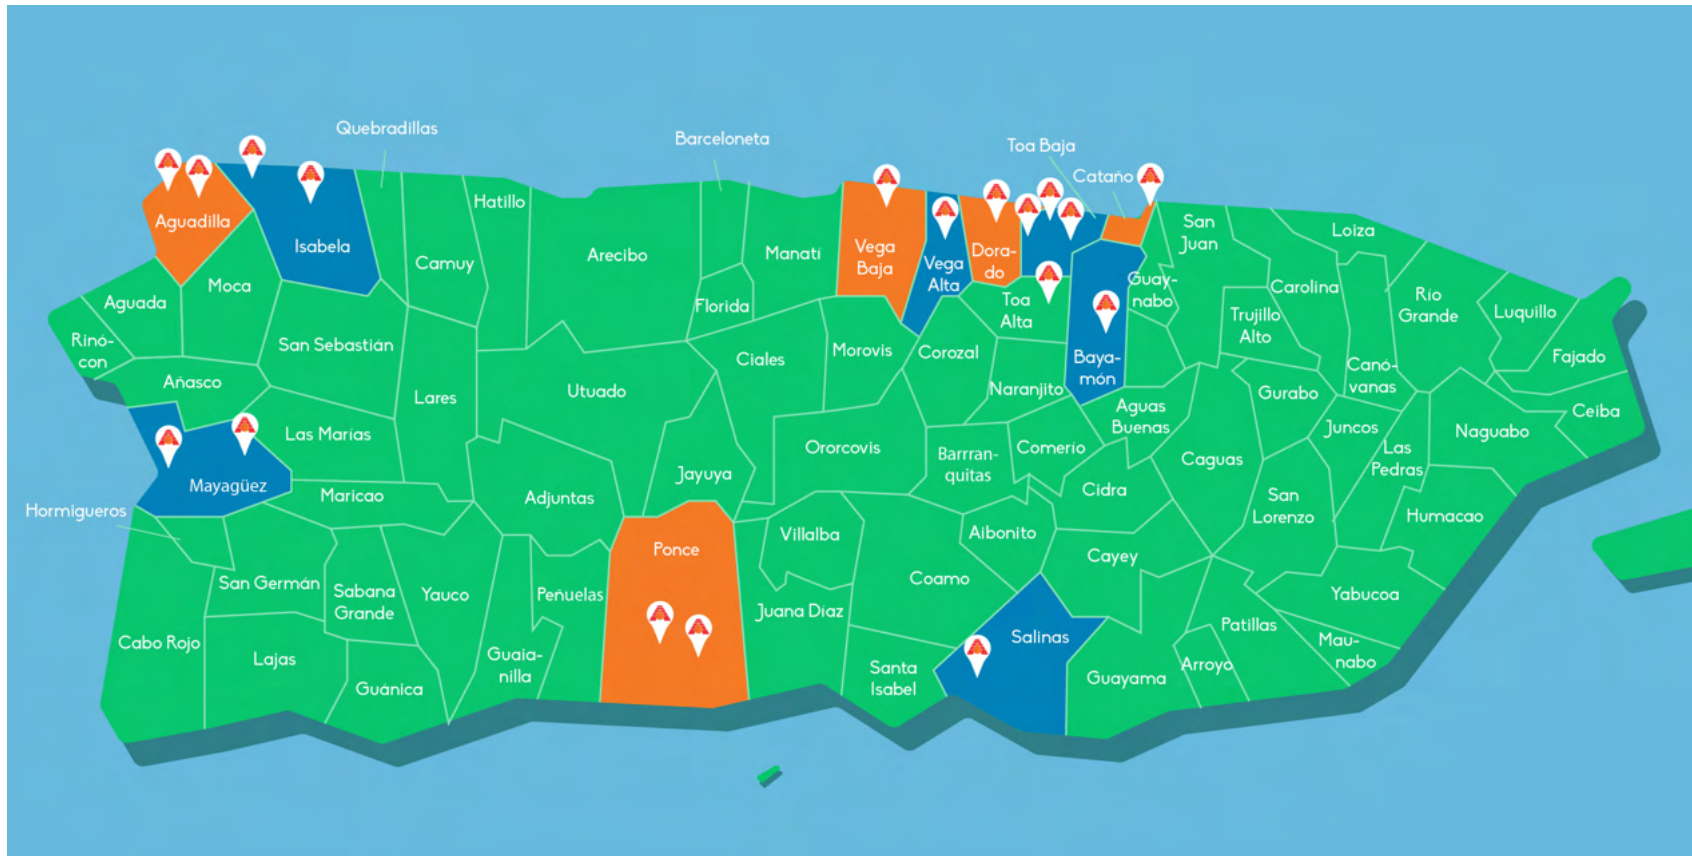

Pre-Paid (Cash)

Prepaid fuel cards are reloadable cards. You will select the number of cards needed for your fleet, you then deposit money onto each card.

You will only get notifications if balances drop significantly so you can deposit more money.

OUR 19 LOCATIONS

NORTH:
