

CONTINGENCY PLAN

In this document, we will outline important details regarding our contingency plan so you can rest assured we are equipped with all necessary to continue our operations in an emergency.

PLANNING FOR THIS HURRICANE SEASON, WE HAVE:

- 1 Trained personnel to manage any emergency
- 2 Internal communication via radio phone
- 3 Performed periodic drills to make sure everything was running smoothly in case of an emergency
- 4 Our fuel storage facilities are located in:
 - Yabucoa
 - Puerto de San Juan
 - Toa Baja
 - Mercedita, Ponce
- 5 Prepared our fleet for any delivery, making it accessible on the Northern and Southern parts of the island.
 - Our fleet counts with:
 - 26 10,000-gallon tank trucks
 - 30, 90-6,000-gallon bobtail trucks
 - 3 3 all-terrain 4x4 trucks
 - 200+ ISO Tanks
- 6 Secured (5) on-site electric generators 2000KW
